Pharmacy Updates

In order to ensure the integrity of patient medication histories and to meet HIPAA regulation requirements, Wyoming Medicaid will be instituting a mandatory birth date match for all pharmacy Point of Sale and hand-billed claims as of November 1, 2004.

You should check with your pharmacy soft-ware vendor to make sure that a patient's birth date is a required field on all pharmacy claims.

If you have any questions in regard to this requirement, please call the Medicaid Pharmacy Unit at 1-800-438-5785.
